Teaching Freedom Through
Financial Education

THE CONTEXT

In 2023, Finance YouTuber Max Maher decided to build his own platform Finova Finance to teach his audience about how to trade in volatile markets, led by industry experts.

THE PROBLEM

Finova's landing page had low conversion rates and finance education appeared complex and overwhelming to newcomers.

THE OBJECTIVE

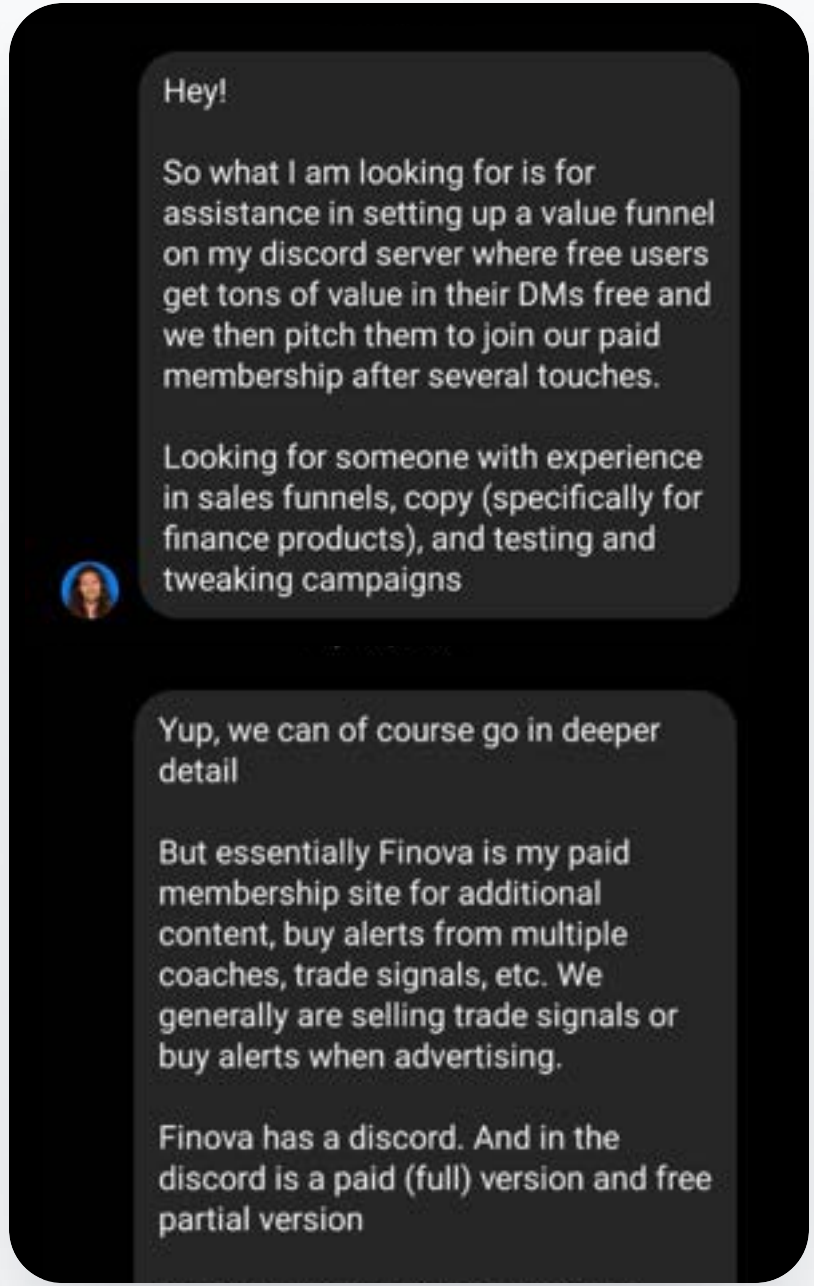

To attract potential customers with free value, nurture their interest through targeted content, and ultimately secure registrations with a clear call to action.

1. EMPATHISE 2. CONCEPTUALISE 3. DESIGN

1. EMPATHISE 2 3

We knew our mission but we lacked insight from important stakeholders

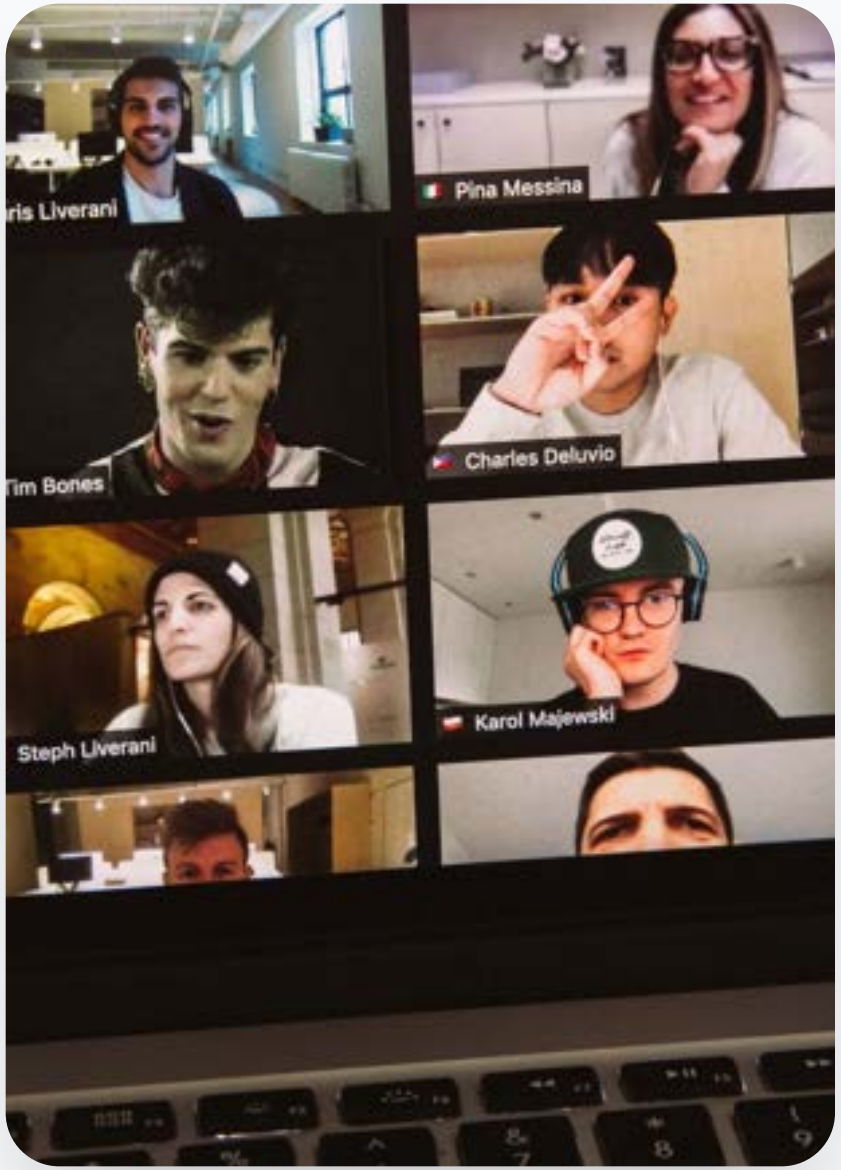

- Current frustrations and pain points?
- What did they really want?
- What did they really need?

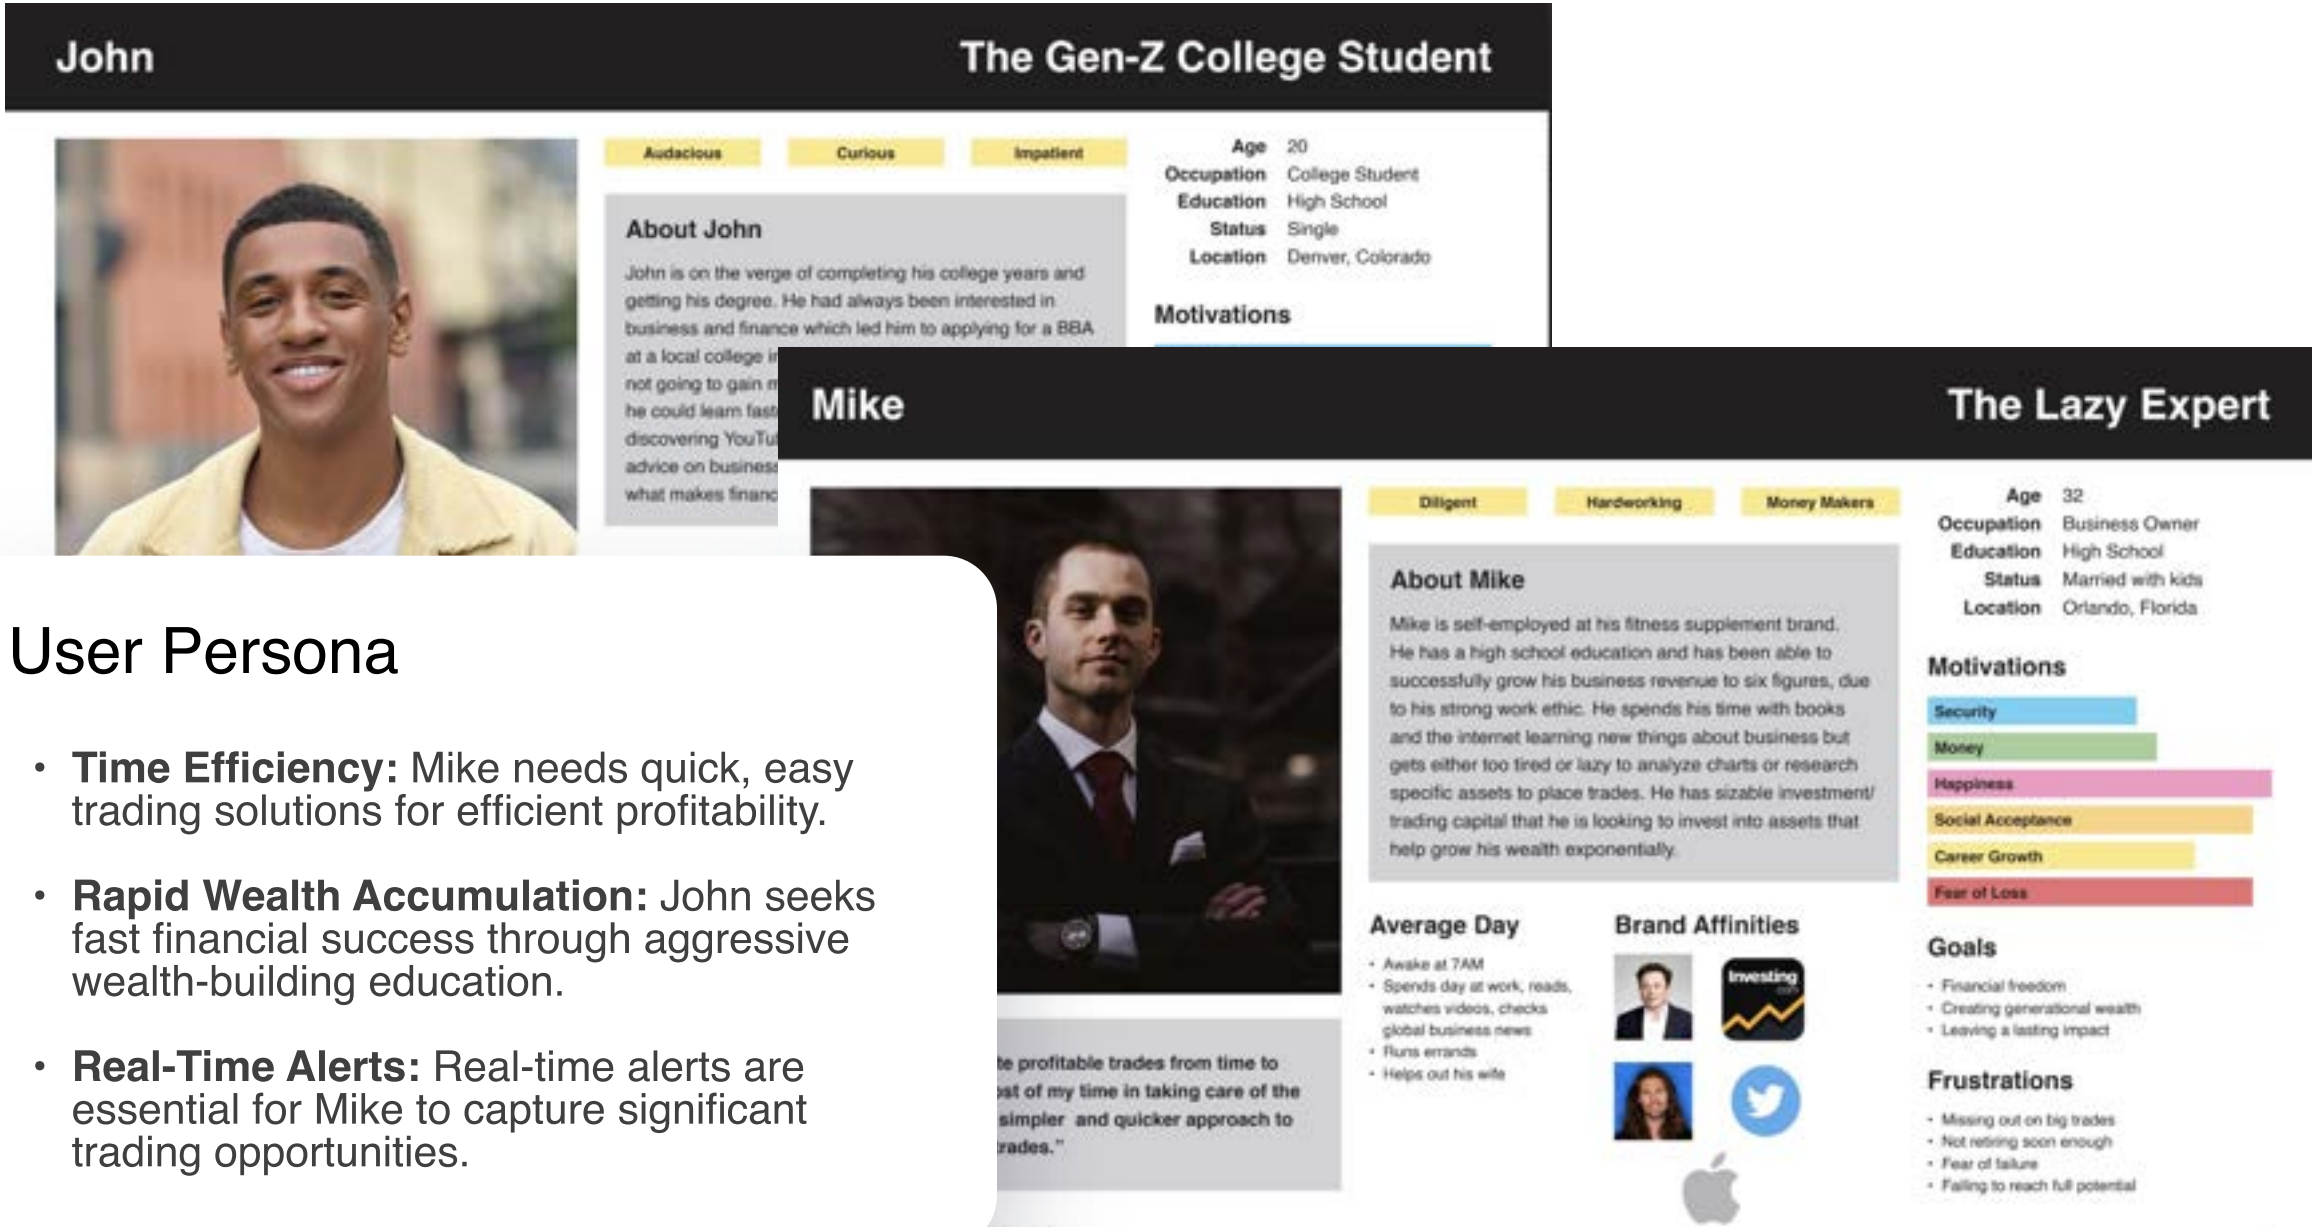

1. EMPATHISE 2 3

Dived into an intensive 2-week research sprint.

- Narrowed down 2 user personas
- Prepared an Empathy Canvas Map

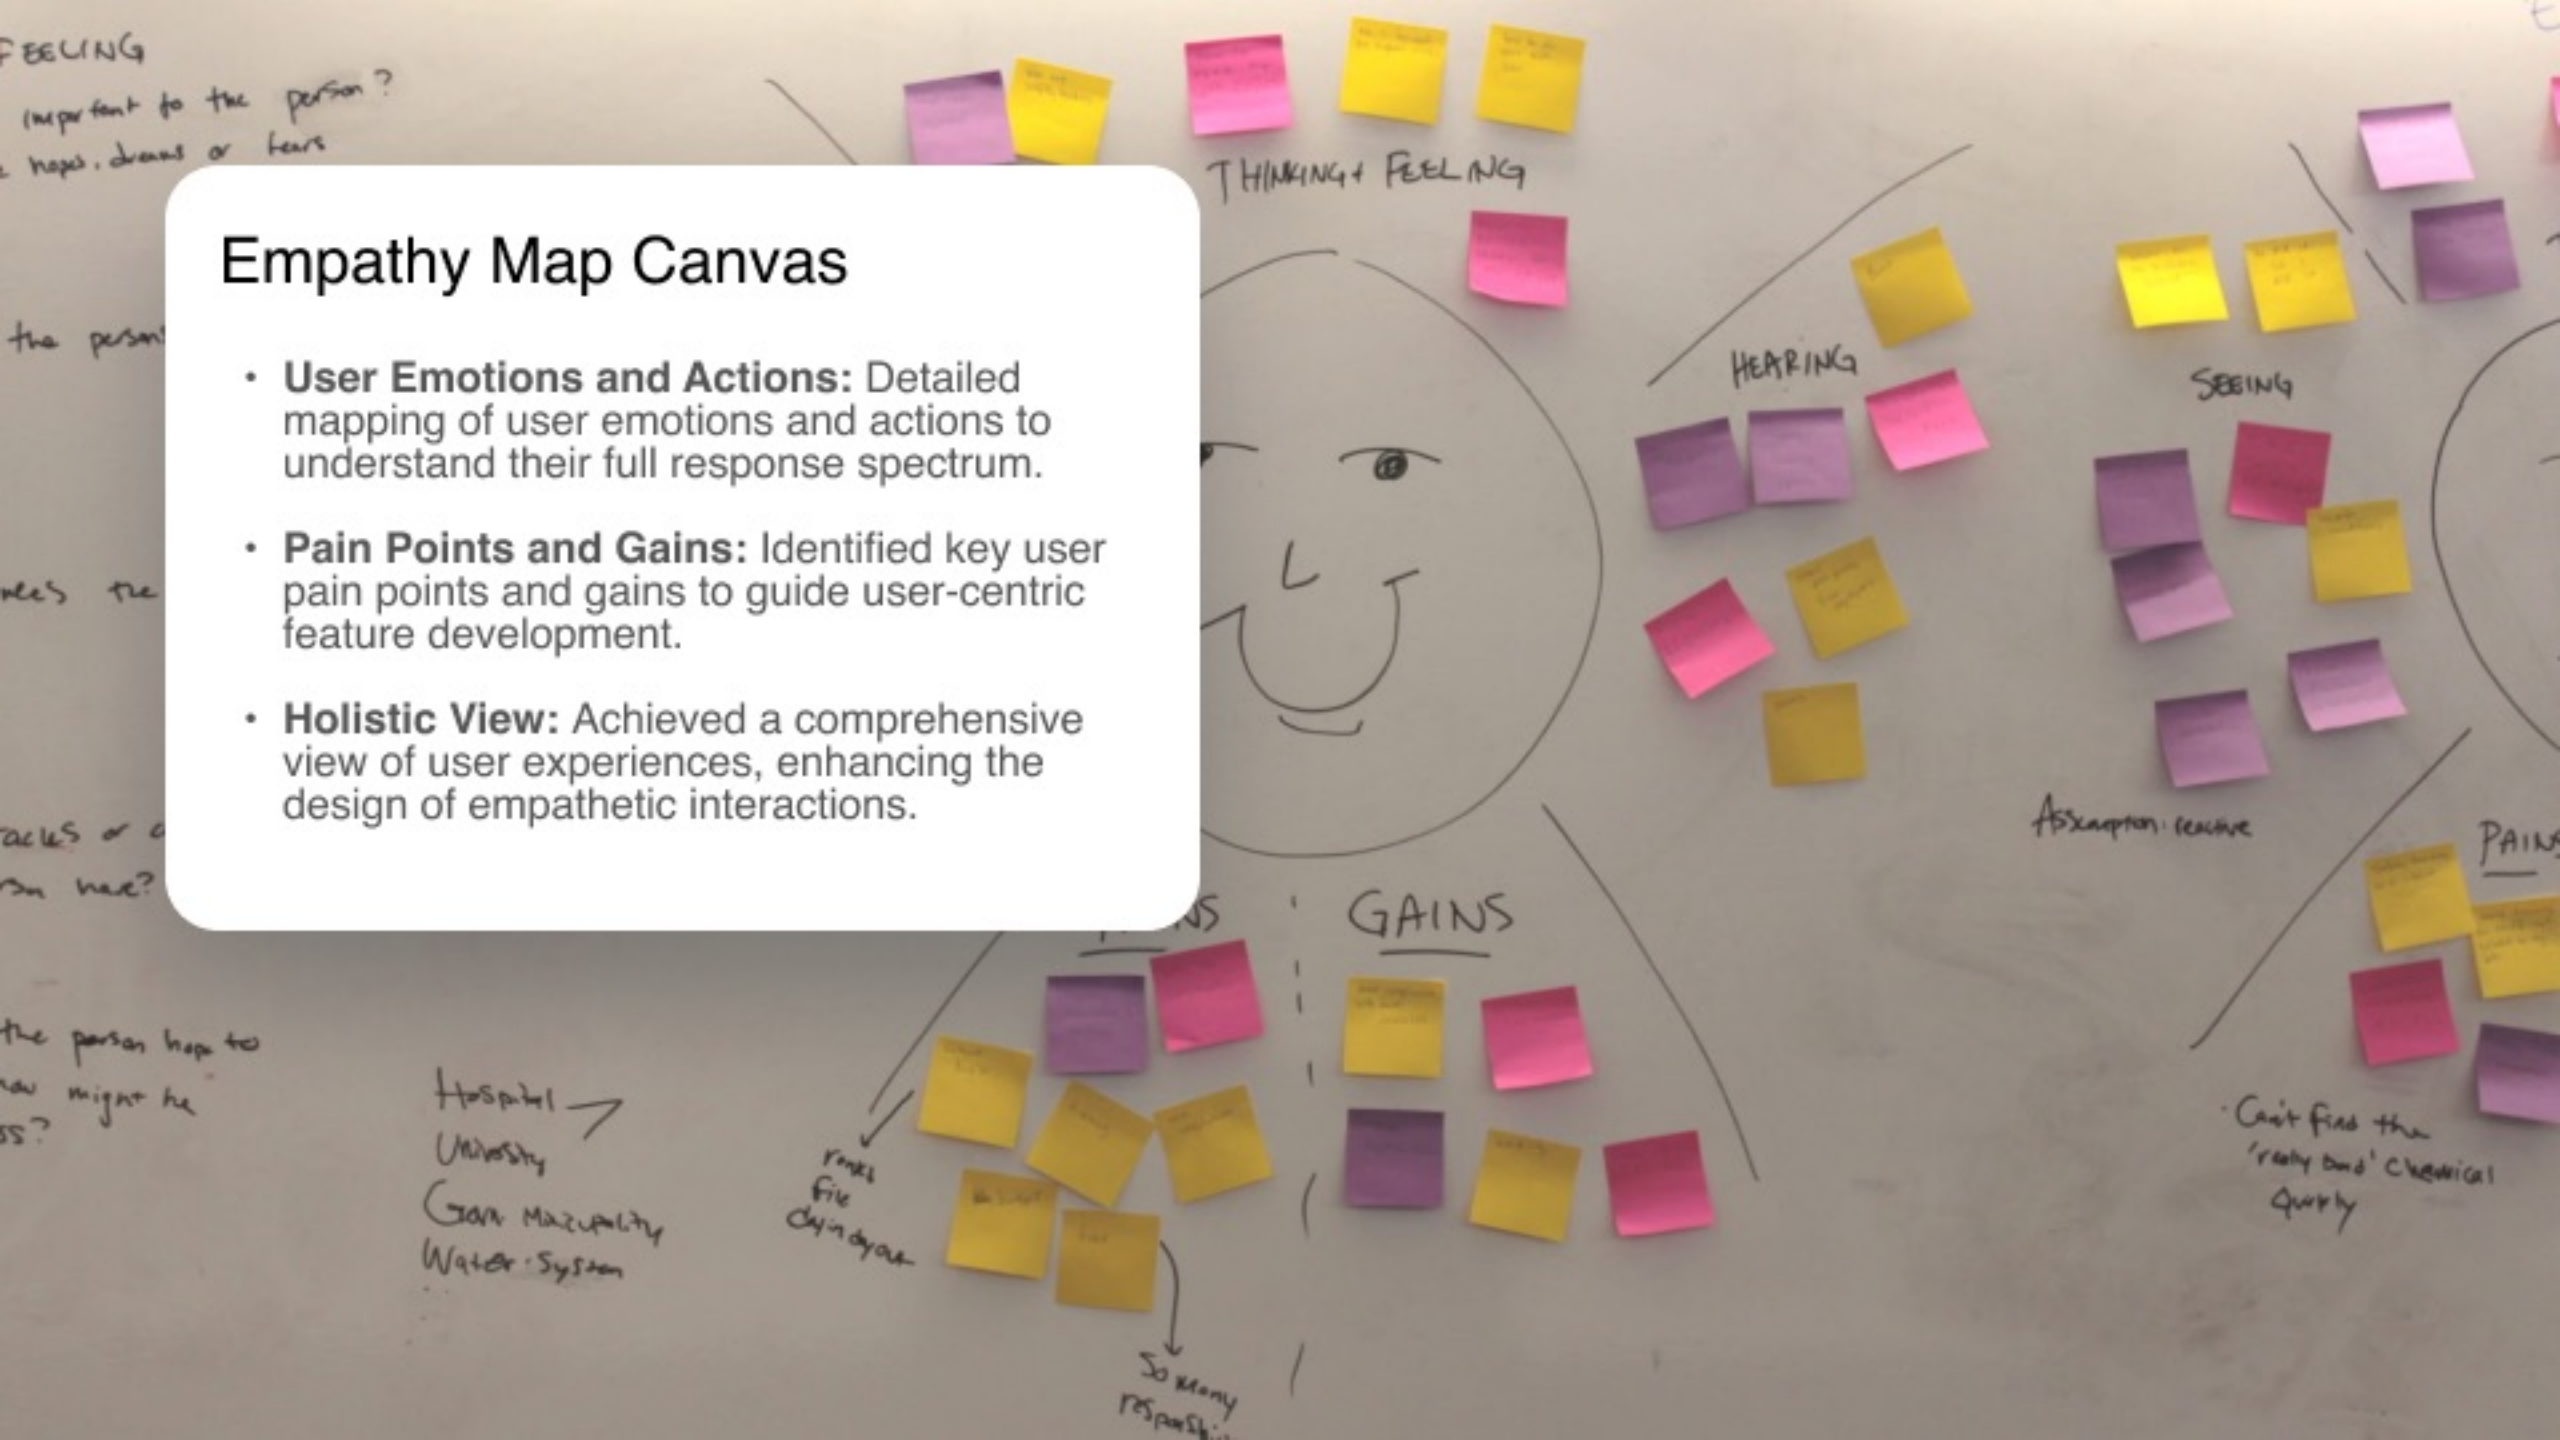

User Persona

- **Time Efficiency:** Mike needs quick, easy trading solutions for efficient profitability.
- **Rapid Wealth Accumulation:** John seeks fast financial success through aggressive wealth-building education.
- **Real-Time Alerts:** Real-time alerts are essential for Mike to capture significant trading opportunities.

Empathy Map Canvas

- **User Emotions and Actions:** Detailed mapping of user emotions and actions to understand their full response spectrum.
- **Pain Points and Gains:** Identified key user pain points and gains to guide user-centric feature development.
- **Holistic View:** Achieved a comprehensive view of user experiences, enhancing the design of empathetic interactions.

1. EMPATHISE

2. CONCEPTUALISE

3. DESIGN

1 **2. CONCEPTUALISE** 3

Overwhelmed with insights, we needed to start prioritizing to form a strategy.

- Understand the competitive landscape
- Classify all insights gathered
- Present our synthesis to stakeholders

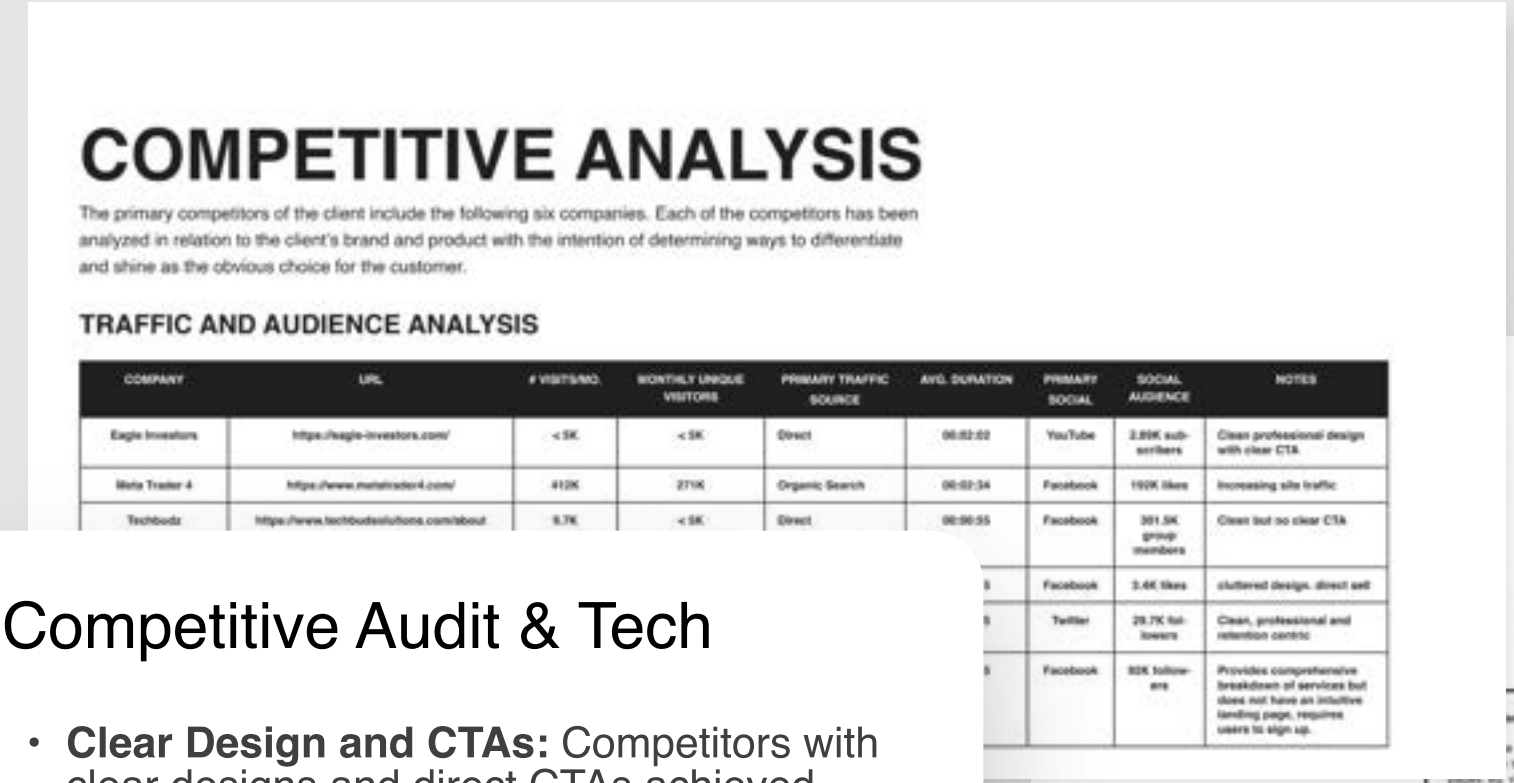

1 **2. CONCEPTUALISE** 3

Jumped into secondary research to form our funnel strategy and experience.

- Conducted Competitive Audit and Technical Build
- Conceptualised User Journeys
- Offer Creation

COMPETITIVE ANALYSIS

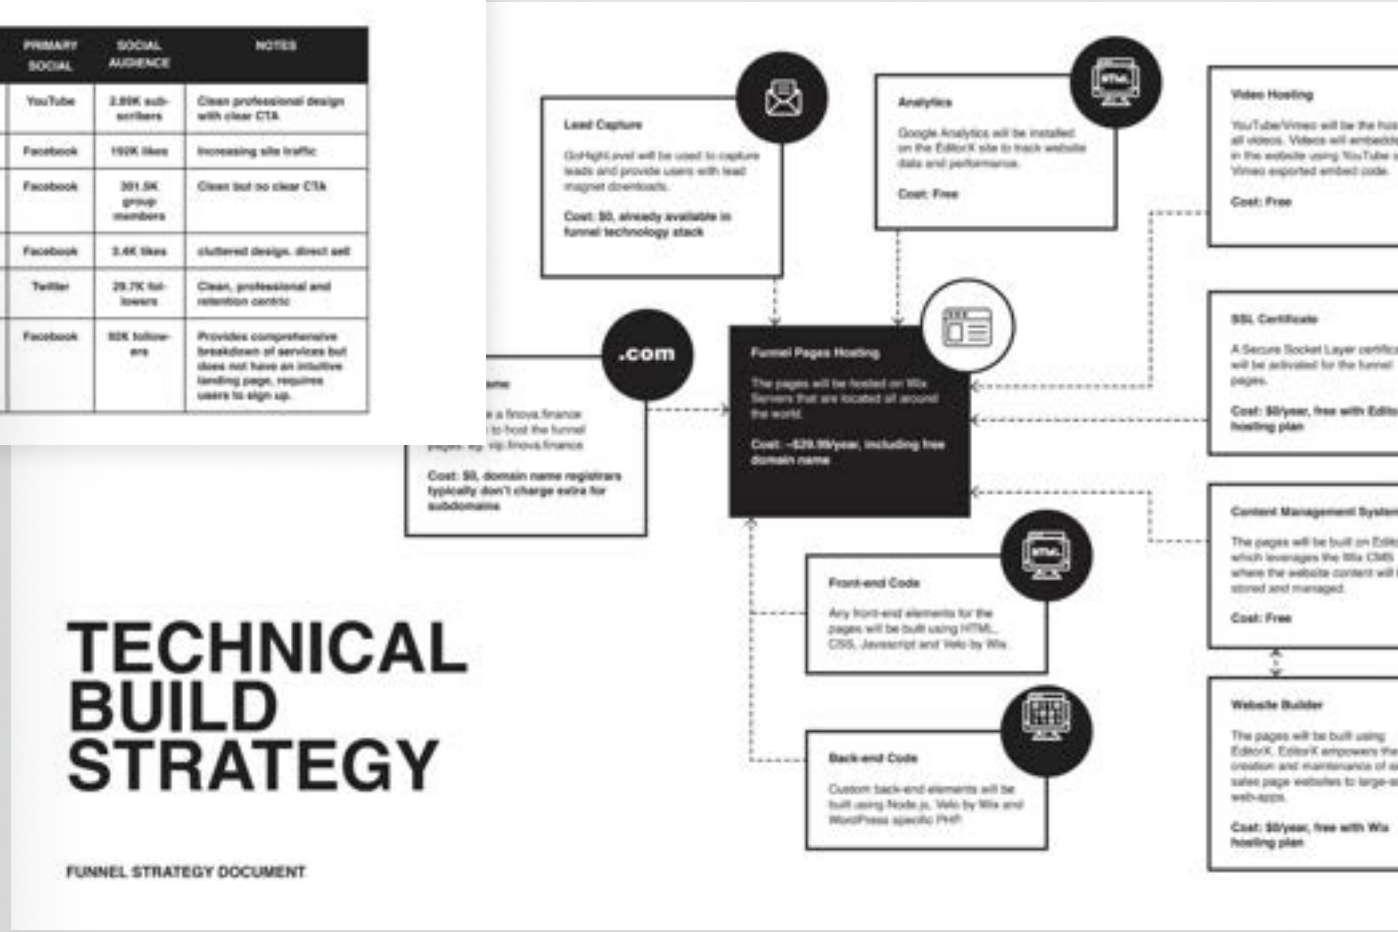

The primary competitors of the client include the following six companies. Each of the competitors has been analyzed in relation to the client's brand and product with the intention of determining ways to differentiate and shine as the obvious choice for the customer.

TRAFFIC AND AUDIENCE ANALYSIS

COMPANY	URL	# VISITS/MO.	MONTHLY UNIQUE VISITORS	PRIMARY TRAFFIC SOURCE	AVG. DURATION	PRIMARY SOCIAL	SOCIAL AUDIENCE	NOTES
Eagle Investors	https://eagle-investors.com/	< 5K	< 5K	Direct	00:02:02	YouTube	2.89K subscribers	Clean professional design with clear CTA
Meta Trader 4	https://www.metatrader4.com/	412K	271K	Organic Search	00:02:34	Facebook	192K likes	Increasing site traffic
Techbuda	https://www.techbudasolutions.com/about	9.7K	< 5K	Direct	00:00:55	Facebook	301.5K group members	Clean but no clear CTA
						Facebook	3.4K likes	cluttered design. direct sell
						Twitter	29.7K followers	Clean, professional and retention centric
						Facebook	92K followers	Provides comprehensive breakdown of services but does not have an intuitive landing page, requires users to sign up.

Competitive Audit & Tech

- **Clear Design and CTAs:** Competitors with clear designs and direct CTAs achieved better user engagement.
- **Organic and Direct Traffic:** Effective use of organic search and direct visits enhanced site visibility and engagement.
- **Simplified Conversion Processes:** Balanced detailed info with easy access and clear pathways to reduce user drop-off.

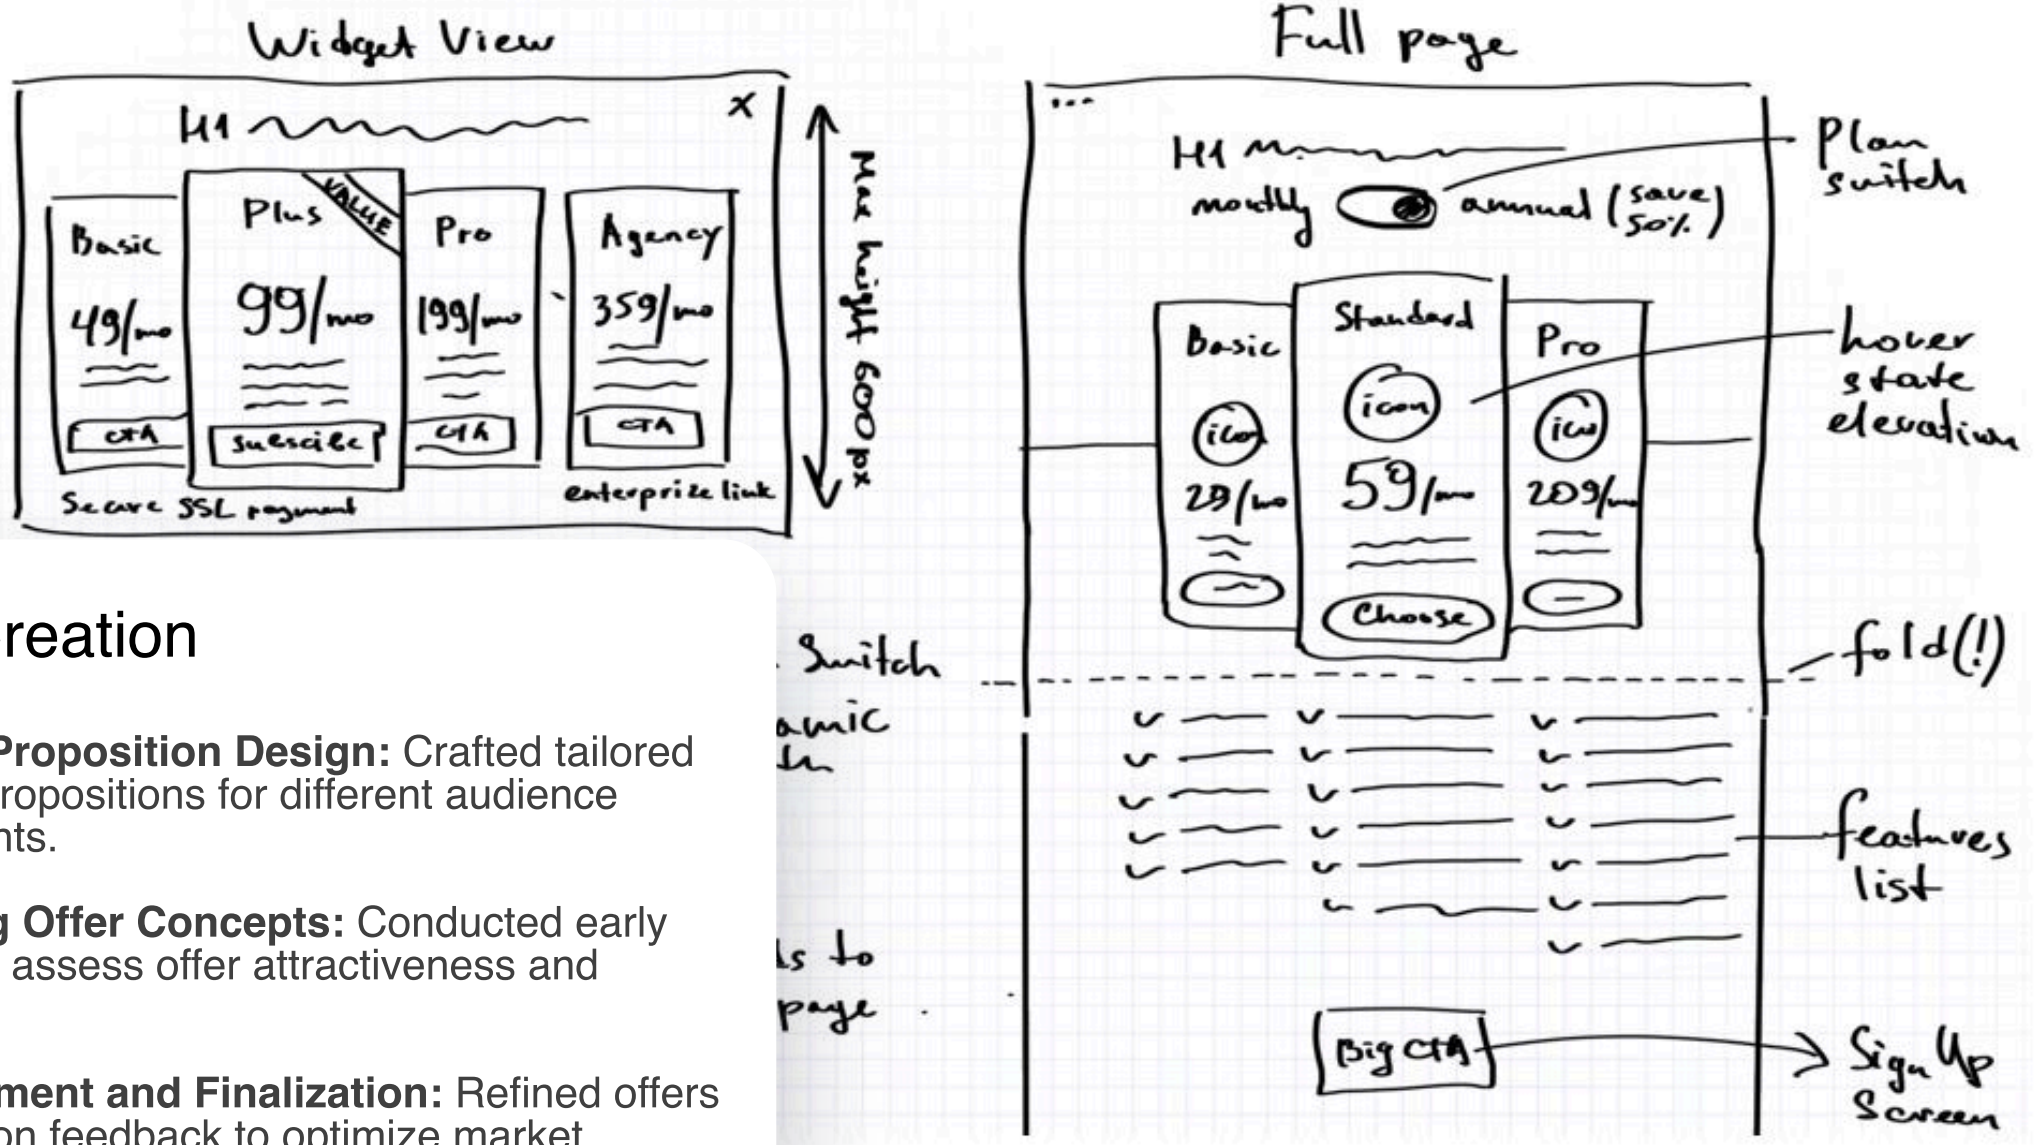

User Journey Mapping

Step-by-Step Guidance: Needed clear guidance through the funnel to aid user understanding and navigation.

Multiple Touchpoints: Required engaging users at various stages with interactive and personalized content.

Feedback Mechanisms: Necessary continuous feedback to adapt and personalize the funnel based on user responses.

Offer Creation

- **Value Proposition Design:** Crafted tailored value propositions for different audience segments.
- **Testing Offer Concepts:** Conducted early tests to assess offer attractiveness and clarity.
- **Refinement and Finalization:** Refined offers based on feedback to optimize market appeal and effectiveness.

1. EMPATHISE 2. CONCEPTUALISE 3. DESIGN

1 2 **3. DESIGN**

We were on a very tight deadline and developers needed to start building soon.

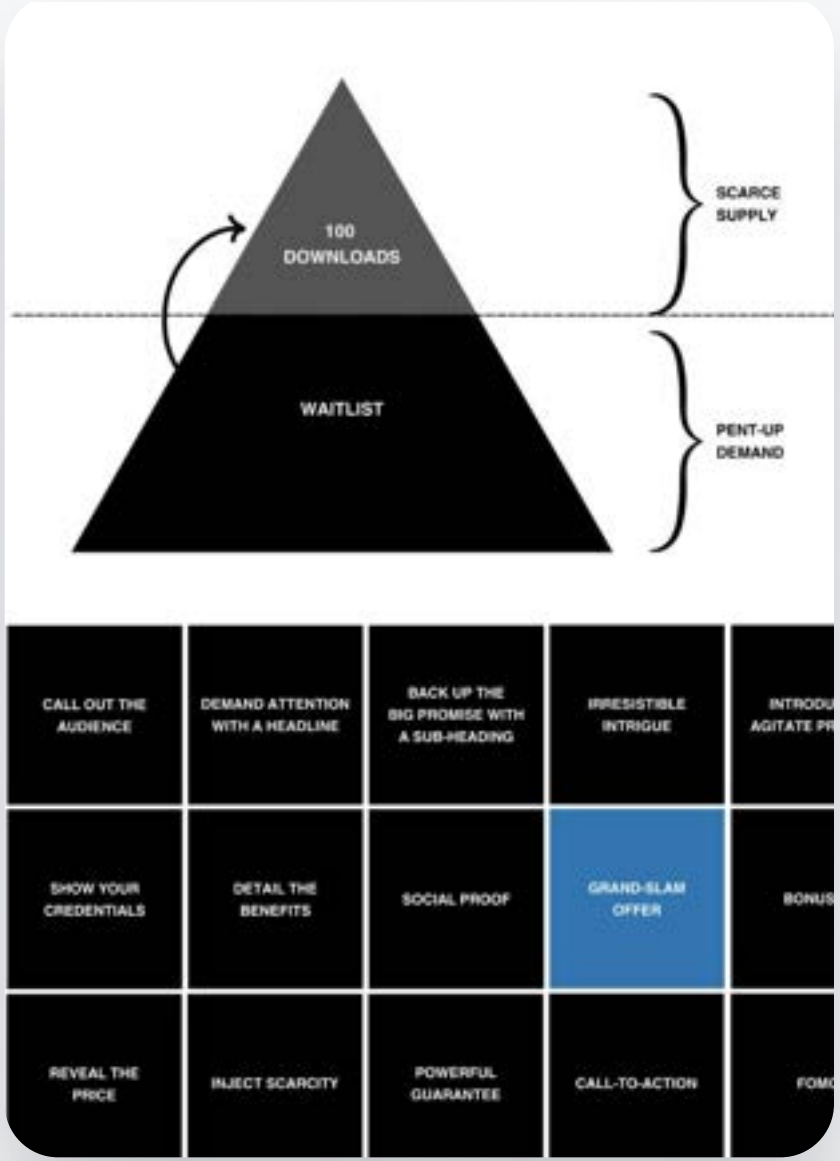

- Should we design the sales page or the opt in first?
- Should we make the lead magnet short or huge?
- How should we craft our nurturing sequences?

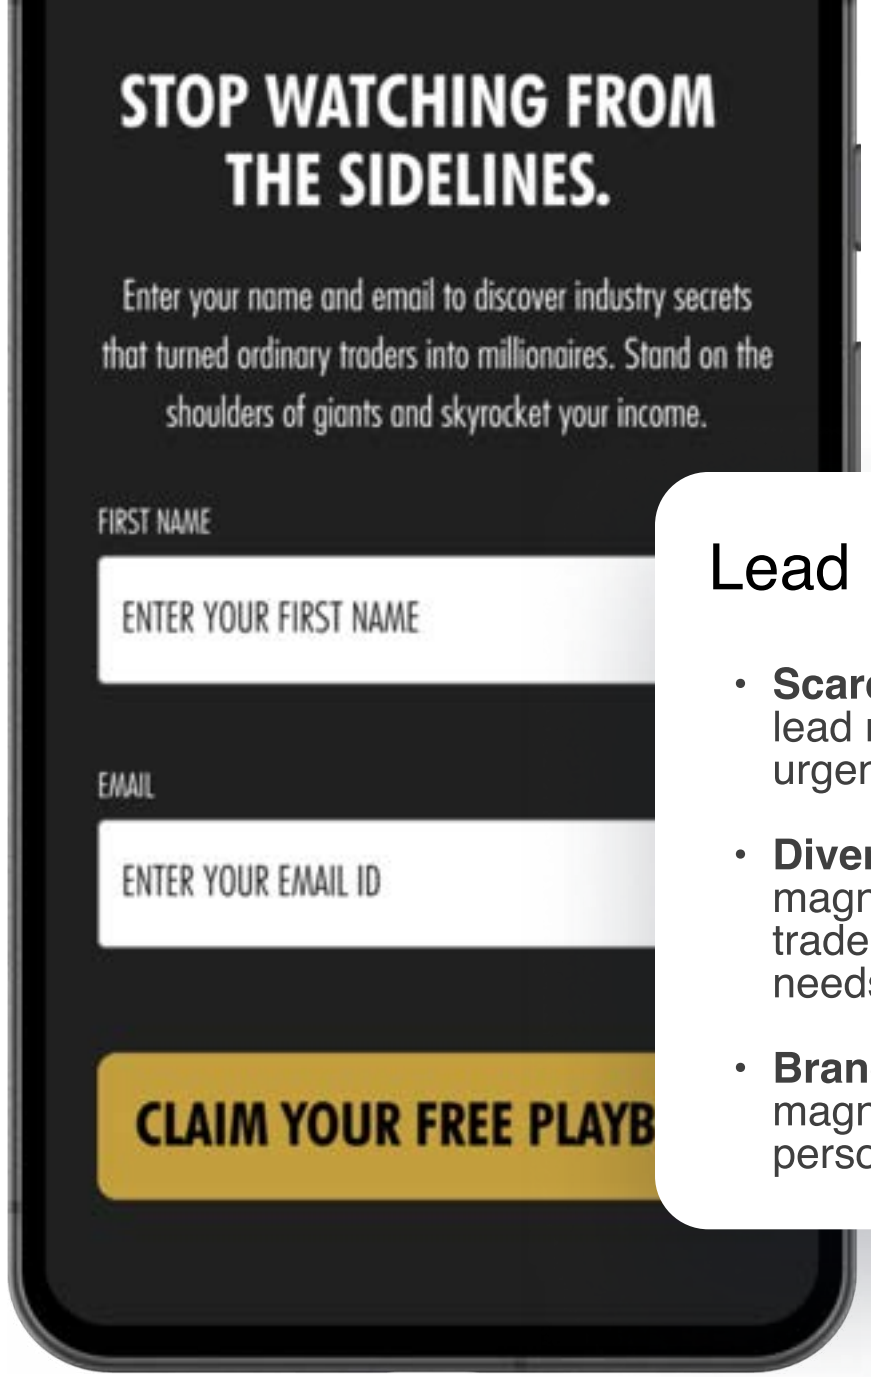

1 2 **3. DESIGN**

Once we answered the burning questions, we commenced design right away.

- Built the lead magnets right away
- Then we wrote the nurturing sequences
- Focus on sales page design (A/B)

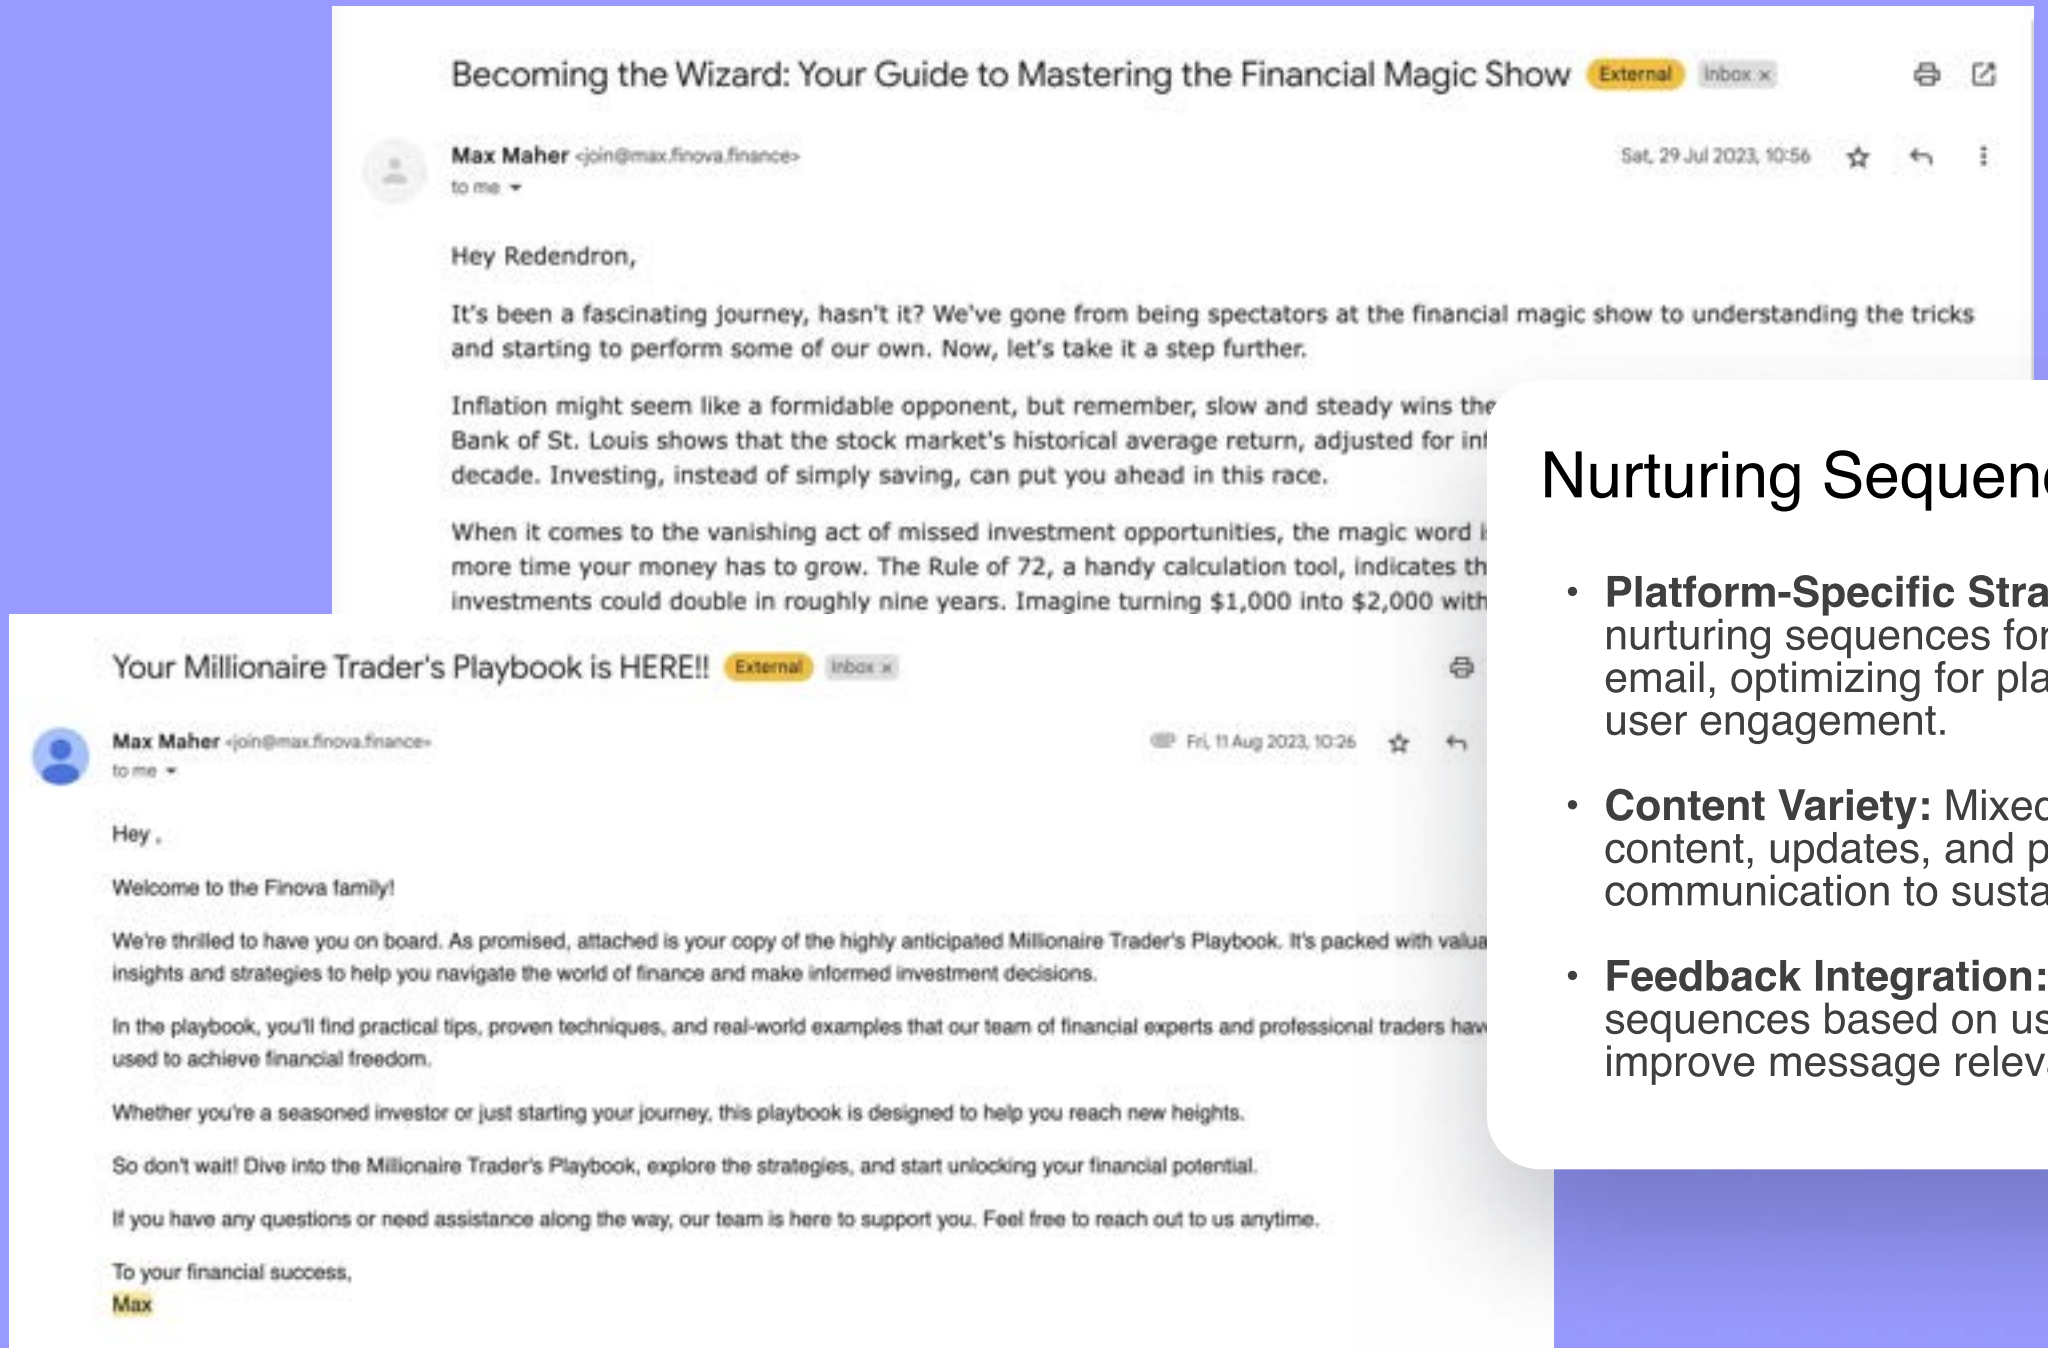

Lead magnet

- **Scarcity Principle:** Applied scarcity to lead magnets, creating exclusivity and urgency.
- **Diverse Content:** Offered varied lead magnets, including chart patterns and trader insights, to cater to different user needs.
- **Brand Leverage:** Enhanced lead magnets' value using Max Maher's personal brand and social proof.

Hey Redendron,

It's been a fascinating journey, hasn't it? We've gone from being spectators at the financial magic show to understanding the tricks and starting to perform some of our own. Now, let's take it a step further.

Inflation might seem like a formidable opponent, but remember, slow and steady wins the
Bank of St. Louis shows that the stock market's historical average return, adjusted for in
decade. Investing, instead of simply saving, can put you ahead in this race.

When it comes to the vanishing act of missed investment opportunities, the magic word
more time your money has to grow. The Rule of 72, a handy calculation tool, indicates th
investments could double in roughly nine years. Imagine turning $1,000 into $2,000 with

Nurturing Sequence

- **Platform-Specific Strategies:** Tailored nurturing sequences for Discord and email, optimizing for platform-specific user engagement.
- **Content Variety:** Mixed educational content, updates, and personalized communication to sustain user interest.
- **Feedback Integration:** Refined sequences based on user feedback to improve message relevance and timing.

Sales Funnel

- **Step-by-Step Layout:** Created a 17-section sales page for systematic guidance and conversion.
- **High Conversion Focus:** Designed each section to enhance conversion using strategic sales techniques.
- **Continuous Optimization:** Employed A/B testing to refine design, copy, and CTAs based on user data.

OUTCOMES

We successfully launched with our opt-in getting a conversion rate of 93.57%, showcasing its highly effective design and content strategy.

Wins

- Discord achieved 16.66% CTR, indicating strong engagement.
- Opt-in A Conversion:Reached a 93.57% rate, showing effective design.
- Email B hit a 39.20% open rate, signaling successful subject lines.
- In a month, 18 users reached checkout pages, highlighting effective conversion paths.

Losses

- Email A with ex-Patreon members had a CTR of only 0.92%, needing more compelling content.
- At 75.67%, Opt-in B's performance lags, suggesting a need for adjustments.
- Low CTR to checkout highlights the need for better messaging and journey optimization.

Learnings

- Launching sales pages with a grand rollout is vital for maximizing initial engagement.
- Expanding Awareness: Increasing funnel awareness through enhanced traction channels is crucial for boosting traffic and conversions.
- Ongoing Funnel Optimization: Continuous adjustments are necessary to maintain the relevance and effectiveness of our evergreen funnel.
