EASY EATS: A BRAND NEW FOOD EXPERIENCE

THE MISSION

A cloud kitchen brand looking to position themselves in the market and recreate the food experience.

SERVICES

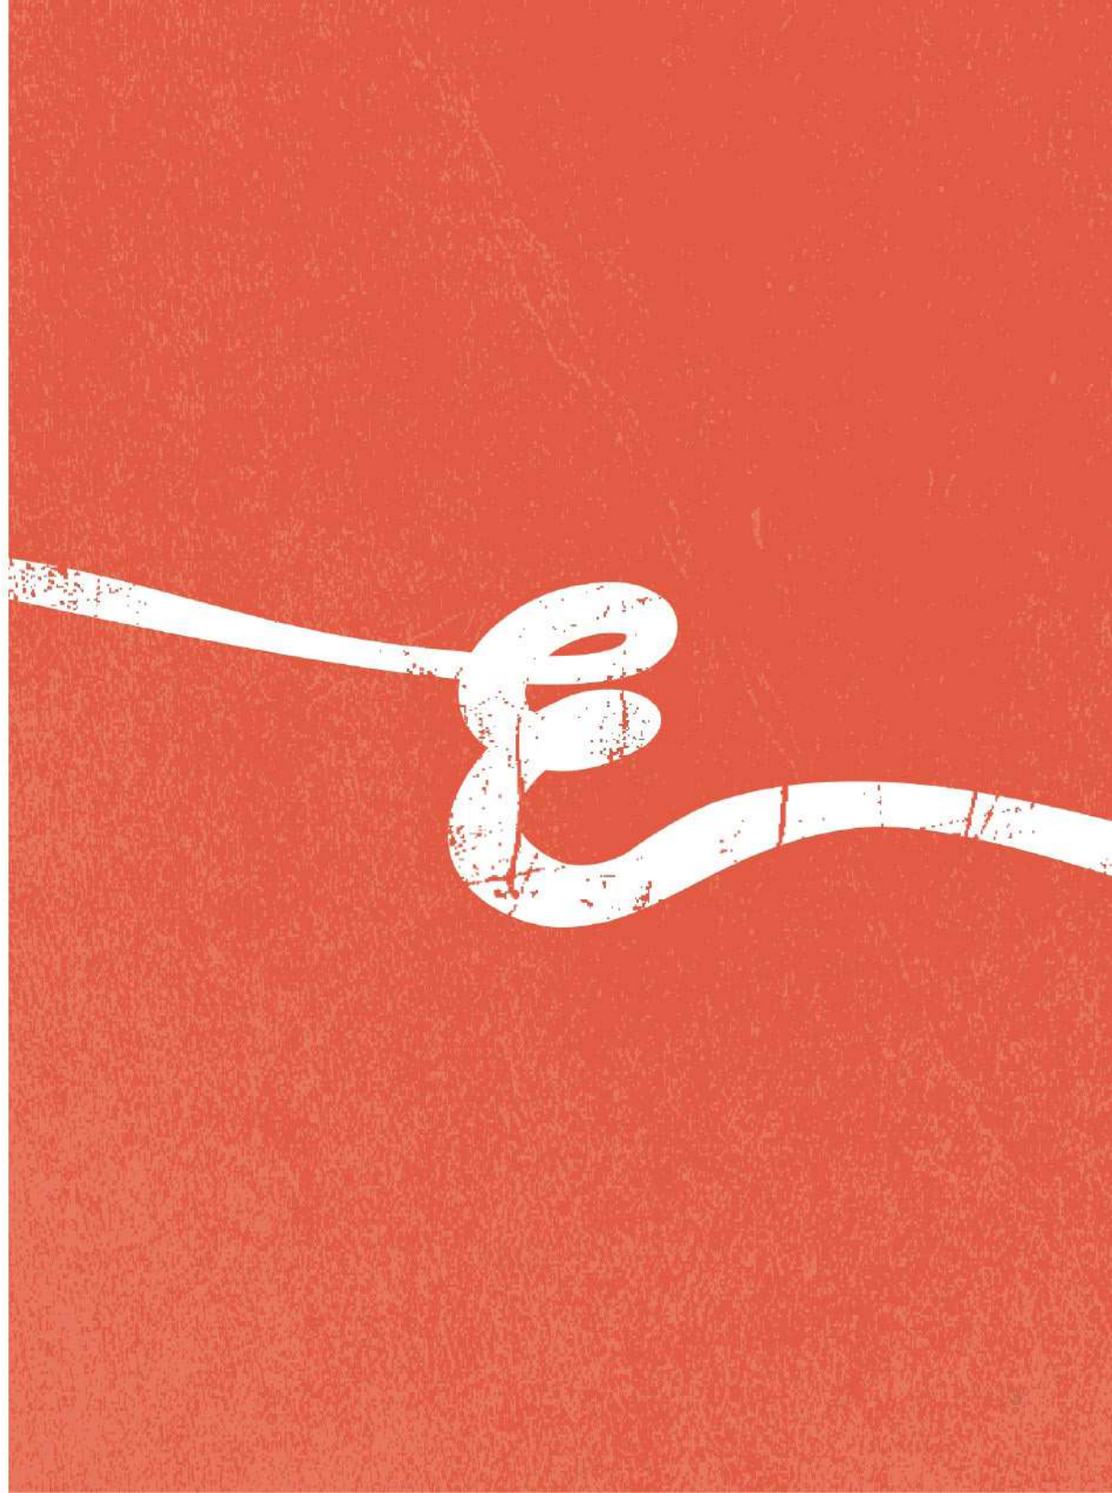

Brand Strategy
Identity Design
Content Marketing

THE OUTCOME

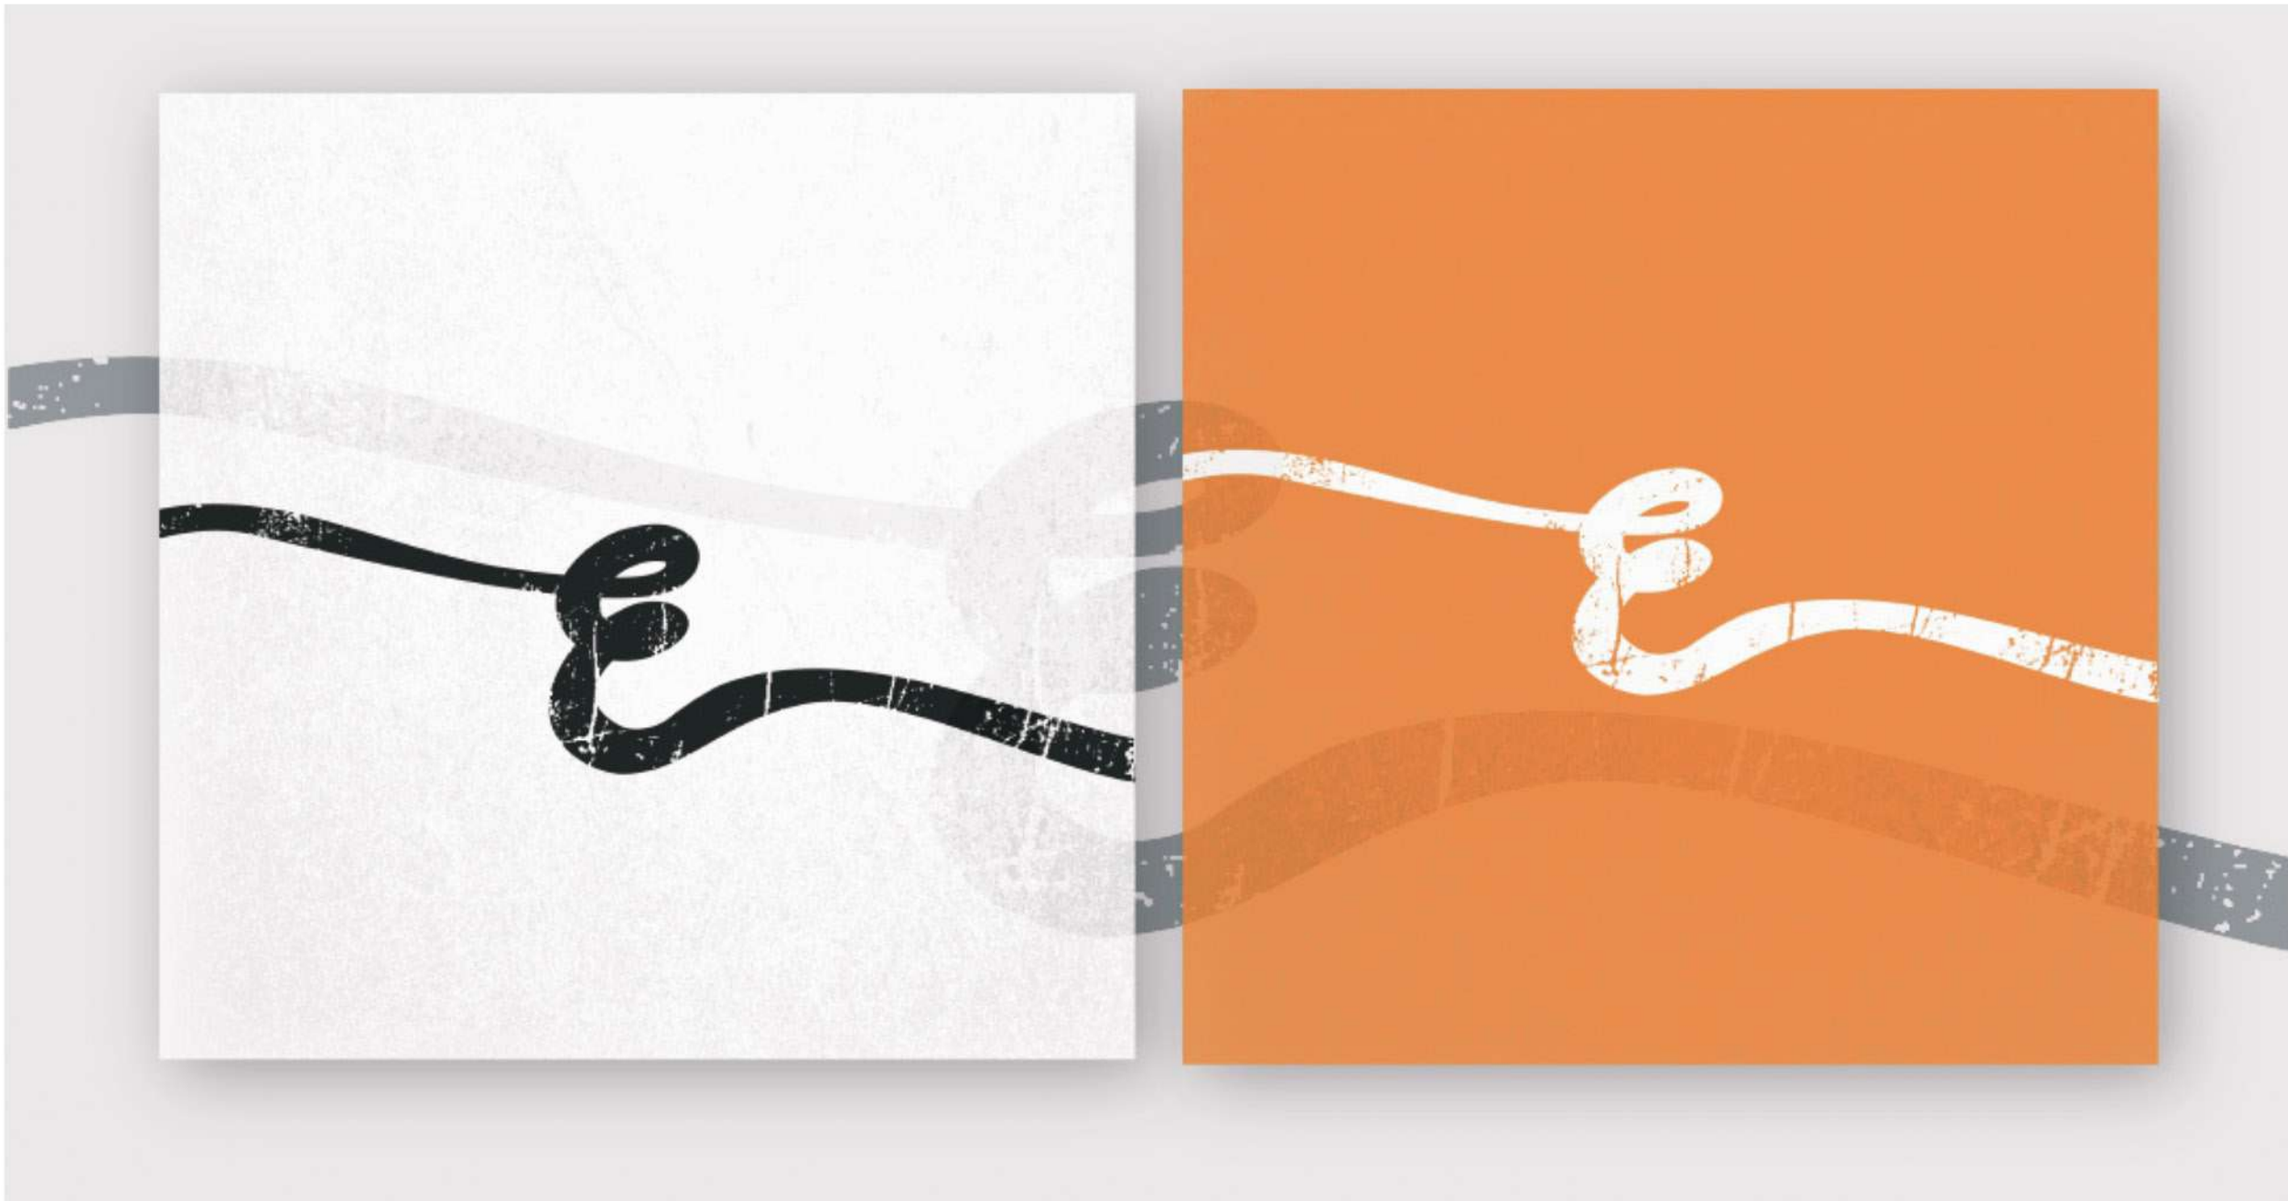

We were able to build a strong brand identity and positioning to help them differentiate themselves from their competition.

THE IMPACT

It was reported that their revenue hit more than 1 Lakh Rupees within initial 10 days of launch. Precise customer targeting led to increased social media impressions and healthy community engagement - both online and offline.

Easy Eats
Easy Eats

SCALABLE SYSTEM

We have ensured that the logo remains responsive and scalable in all shapes and sizes.

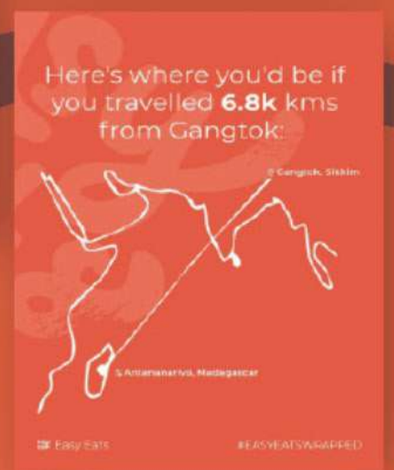

WHY FRENCH FRIES ARE DEAD!
CAUSE WE K*LLED IT!
Here's How
Fries are fried to a crisp and sprinkled with our seasoned salt and pepper.
The fries are then topped with onions, followed by a nice drizzle of our secret sauce, after which, jalapenos and olives are added.
Cheese sauce is provided separately - so that it doesn't make your fries soggy.
Feel free to dump all of the sauce provided over the fries and use a fork to enjoy it in all its glory.

OUR WORK
WHAT WE DO?
AIDS CONTROL PROGRAMMES
In 1992, the Government of India launched the first National AIDS Control Programme (NACP-I) which was implemented during 1992-1999 with an objective to slow down the spread of HIV infections, so as to reduce, morbidity and mortality and impact of AIDS in the country.
BLOOD SAFETY PROGRAMME
While the vast majority of HIV infections in India are attributed to the sexual route of transmission, we are mindful that the transfusion of unsafe blood and blood products account for 2.07 percent of the HIV infections in the country in 2004-2005. Access to safe blood is

@shraddhashahraikar
Personalized learning provides each student with a "learning plan" based on how they learn, what they know, and what their skills and interests are. It's the opposite of the "one size fits all" approach used in most schools.

TOOLS AND STRATEGIES OF SUCCESSFUL TRADERS
MILLIONAIRE TRADER'S PLAYBOOK

CHAPTER 6

ECONOMICS OF TRADING

Trading isn't an isolated activity - it's deeply connected to the broader world, especially to economic trends and events. Things like changes in monetary policy, trade agreements, and more can all have a big impact on the financial markets. Understanding these connections can help you make better-informed trading decisions.

6.1. How Macroeconomics Influence the Markets

Macroeconomics is the study of the economy as a whole, including factors such as inflation, unemployment, and economic growth. These big-picture trends can significantly affect the markets.

Imagine the economy as a big ocean, and each company or asset as a boat on that ocean. Changes in the ocean (the economy) can make the waters calm or stormy, affecting all the boats (the businesses and the assets tied to them) on it.

For example, if the economy is growing (represented by increasing Gross Domestic Product (or GDP)), companies are likely to see more profits, which can increase stock prices. On the other hand, if there's high unemployment, people have less money to spend, which can hurt company profits and lower stock prices.

6.2. Understanding the Impact of Monetary Policy and Trade

Monetary policy and trade are two key economic factors that can greatly influence the markets.

Monetary policy refers to the actions taken by a country's central bank to control the amount of money in the economy. It's like a thermostat for the economy. When the economy is too hot (growing too fast), the central bank might raise interest rates to cool it down. When the economy is too cold (not growing enough), it might lower interest rates to heat it up.

These changes in interest rates can affect the cost of borrowing money for businesses and consumers, influencing spending, investment, and ultimately, the stock market.

Trade, meanwhile, can also have a significant impact. For example, if a country imposes tariffs (a kind of tax on imports), it can make imported goods more expensive, hurting companies that rely on these goods and potentially lowering their stock prices.

Being aware of these factors and understanding their potential impact on the markets can give you an edge in making smart trading decisions.

MAX FOR CEO: RADICAL RE-EVALUATION OF YOUR BUSINESS

THE MISSION

A visionary entrepreneur with several multi-million dollar businesses under his belt goes out of his way to aid businesses with broken systems.

OUTCOME

We created a micro-site that highlights the benefits of having Max at your ringside, and allows prospects to sign up for the program.

Since Max Maher started his first business at age 13, he :
• Grew a nationwide logistics company, employing hundreds of people.
• Self funded growth strategies that have seen 1400% returns
• Successfully exited 3 businesses
• Developed a deep understanding of social media, using his platform to amass 900,000 subscribers and generate his viewers more than $10 billion dollars in profits to their business.

PROPOSAL & STATEMENT OF WORK (SOW)

We would be delighted to work with you to satisfy the branding and marketing needs of your business. Each engagement with our agency includes a proposal and detailed statement of work which defines our services in detail. The proposal will clarify the process we will use to execute on the project and the statement of work will act as a formal agreement between both our agency and you, as our client.
